EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Barrett on 8-22-07.

The application has been amended as follows: in claim 11, line 1, the "8" has been deleted and a – 10 – inserted therein.

In claim 12, line 1, the "9" has been deleted and a – 10 – inserted therein.

The following is an examiner's statement of reasons for allowance: the cited references do not disclose the particular amounts of fiber, oat bran concentrate and cereal bran as required. The combination of oat bran and oat bran concentrate with relatively small amounts of viscous soluble fiber unexpectedly causes the increased viscosity of the composition as shown by Ex. 2, and fig. 1. The use of low amounts of soluble fiber is important as high amounts of fiber give undesirable organoleptic properties to a food product (page, 1 last paragraph, page 2, lines 1-7).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Helen F. Pratt at telephone number 571-272-1404.
